Objective

Enthusiastic final-year student passionate about software innovation. Experienced in turning ideas into digital reality. Eager to contribute to dynamic development teams, combining creativity with technical finesse. Ready to excel in the ever-evolving world of technology.

Education

Bachelor of Computer Science - Loyola College   2023 – 2026
CGPA: 9.4   *Nungambakkam, TN*

Santhome Higher Secondary School   2018 – 2023
Percentage: 93%   *Mylapore, TN*

Experience

Codeship pvt Ltd.   Feb.2025 -Jul .2025
Frontend developer intern

- Gained hands-on experience in frontend-backend integration, structuring efficient full-stack workflows. Collaborated with developers to integrate APIs and enhance interactivity across web apps. Collaborated with the team to integrate dynamic data into user interfaces, improving interactivity and performance across web applications. Explored the ethical implications and real-world applications of AI technology, increasing team awareness of AI's impact on business practices.
- *Designed and implemented multiple responsive, animated, and user-centric web interfaces using React. Gained hands-on experience with component-based architecture, state management, and routing while working on real-world projects that emphasized clean design, scalability, and usability.*

Projects

Codeship Website (Internship Project) | *React ,vite SSR , Bootstrap , Gsap , Emailjs*

- *Designed and developed the complete landing page and main website for Codeship, focusing on clean UI/UX, responsive layout, and dynamic content using **React**. Implemented modern frontend practices to ensure performance, accessibility, and maintainability.*

Pet Veterinary Website (Personal Project) | React , vite , Tailwind CSS , TypeScript , FireBase

- Built a fully responsive and interactive website for a fictional pet veterinary service that allows users to book appointments, manage their user dashboard, shop for pet products with cart and purchase options, and access consultation and advice services for their pets through a seamless user experience.

Skills

Frontend: HTML, CSS, JavaScript, React, TypeScript, Vite, GSAP, Tailwind CSS, Bootstrap, Swiper, SSR, API Integration

Backend: Python, Java, MySQL

Tools: Git, GitHub, Firebase, VS Code

Soft Skills: Adaptability, Teamwork, Project Management, Consistency, Dedication, Volunteering

Certificates

Frontend Dev - coursera.org.

Google IT Support - coursera.org.

HDFD – CSC
